My family and our team had the most amazing trip with Jack Holmes and his team. The organization, knowledge (history) food and hockey was nothing short of amazing. We were looked after like sports professionals. The accommodations, transportation of some 50 plus people each and everyday was seamless. The history that's was provided to my family and I was something we will cherish for our lifetime. We are so looking forward to the next one. Thank you Jack and Team for helping us make some many memories we will never forget. Finland and Sweden up next summer 2025'

It was so much fun being there with you!! Your team put on a show, everything well planned, Juney's timing always bang on, The Kids!! What an experience they all had. Life Memories that they will talk about for years to come, Kane came back to Canada and played twice as hard as he ever has in Native Provincials and took his team to capture and become Provincial champs for U 15. Alberta.
I would highly recommend your sport Tours for sure
